

The simplest way to record a sale.

FigoBooks helps every seller calculate their stock, print a receipt, see who owes them, and know exactly how much they made.

[Start for free](#)[See how it works ↗](#)

Join 500+ businesses that closed today knowing exactly what they made.

You're probably losing money you don't know about.

Not to theft. Not to bad luck.

To the gaps between the sales happening and someone remembering to record them. FigoBooks closes those gaps, so you can see what sold, what is left, and what your business actually made.

"Records that take hours to reconcile"

"Stock you thought you still had"

"Sales you made but never"

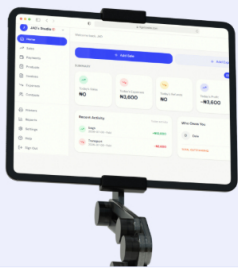

recorded"

Running a business used to mean guessing, not knowing.

FigoBooks changed that with tools that record, track, print and explain every transaction, so you know, at the counter or wherever you sell.

Smart Inventory

The stockroom that runs itself.

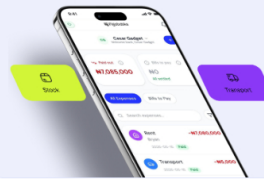

Receipt Printer

Automatic receipts for every sale.

Expense Tracker

Know where every naira goes.

Barcode Scanner

Faster checkout, fewer mistakes.

START YOUR WAY

Use the app today. Add printing when you need it.

FigoBooks works without a printer. Choose the setup that fits your business now, and expand without starting over.

From people who tried it

“

The sales report surprised me. Products I thought were my best sellers weren't even close. Now I see what customers actually buy, and my profits have improved.

Augustine Okonkwo
CEO, ShineStyle Fashion - Lagos

“

Honestly, I was skeptical. I thought it was going to be complicated like every other software I'd tried. But I recorded my first sale in two minutes. That was it — I was sold.

Grace Adebayo
Owner, Grace Mini Mart - Ibadan

”

Working staff used to be stressful because I couldn't verify every recorded sale. With FigoBooks, every transaction is visible, giving me complete confidence in my team.

Chinonso Eze
Manager, Swiss Delicacy - Abuja

BEFORE YOU START

A few useful answers.

Everything you need to choose between FigoBooks on its own and the complete printer setup.

Do I need a printer to use FigoBooks?

No. You can record sales, manage inventory, create invoices and track expenses with FigoBooks first, then add a printer whenever your business is ready.

Can I use FigoBooks offline?

Which devices work with the Figo Mini?

What comes with the Figo Mini?

How long does delivery take?

Can someone help me get started?

Five minutes from now.

No demo call. No setup wizard. No waiting for someone to onboard you. Open FigoBooks, record what you sold today, and see it on your dashboard immediately.
